Dear colleagues,

It is with great pleasure that we invite you to join CSI Asia-Pacific 2023 for a comprehensive overview of major topics in **catheter therapy for congenital, structural and valvar heart disease**. The congress will take place in Bangkok, Thailand on October 6-8.

The scientific sessions at CSI AP will be conducted by leading experts, with a particular emphasis on the Asia-Pacific region. During the three days of the conference, we will focus on **lectures, live case transmissions** from experienced operators and valuable learning opportunities for **hands-on training**.

The program committee will welcome abstracts and cases from those interested in presenting their work during the conference, which will be included in our popular **e-poster** and **cathlab café** sessions. Join us at CSI Asia-Pacific to learn about the newest devices, techniques and procedures.

We look forward to seeing you in Bangkok!
